Available for projects: remote, hybrid across Portugal, or on-site in the Centro region · Portuguese and English (also Ukrainian, Russian, Spanish)

SUMMARY

I build complete online presences for small and medium-sized businesses (SMEs): brand, website, SEO and the legal pages, from the first concept to a live site. I use AI tools (Claude, Cursor, Midjourney, Stable Diffusion, Runway) to move fast and explore more ideas, and I bring 10 years of tech experience, including 8+ years in QA. Every site I deliver is tested on phones, tablets and desktops before it goes live. I speak your language, Portuguese or English, and I explain everything clearly and in detail.

WHAT I DELIVER

- **Brand identity:** logo, colors, fonts, business cards, email signature and a digital contact card (vCard + QR code)
- **Website or landing page:** bilingual PT/EN, mobile-first, fast, with contact form, WhatsApp, maps and galleries
- **Found on Google:** SEO basics done right: page titles and descriptions, structured data, sitemap, fast images
- **Legal for Portugal:** privacy policy (RGPD), legal notice and company details shown the way the law asks
- **Domain & hosting:** domain setup and hosting on Cloudflare, with a clean, secure, low-cost setup
- **AI visuals:** images and short videos made with AI tools when photos or budget are missing
- **Care after launch (by agreement):** updates to content, listings and prices

SELECTED WORK

carlospita.pt: Brand & Website · Client project — 2026

Carlos Pita, real-estate consultant and developer, Coimbra.

- Delivered the whole package: brand identity (5 concept rounds, made with AI image tools), a bilingual PT/EN website with property pages, business cards, vCard, email signature and a "coming soon" page while the site was finished.
- Property pages with photo galleries, floor plans, maps and a purchase-cost (IMT) calculator that helps buyers estimate taxes.
- Built for Google: structured data, sitemap and descriptions written for each listing. Images ~40% lighter for fast loading on phones.
- Privacy policy, legal notice and company details (NIPC, AMI license) in line with Portuguese rules.
- Tested at screen widths from 320 to 2560 px in both languages. Hosted on Cloudflare.
- Lighthouse 90+ in all four categories (SEO 100). 4.8k+ page views since going live (Oct 2026).

> "Oleg built my entire digital presence from scratch: the brand, the bilingual website, business cards and email signature. He was fast, detail-oriented and handled the legal and technical side I couldn't have done alone."
>

R3solvo: my own product · r3solvo.com — Since 2025

Services marketplace connecting clients with verified local professionals, with payments held until the job is done.

- Founded and built it alone, from idea to closed beta: brand, website, mobile and web app, payments and certified invoicing.
- 2k+ organic visitors a month on r3solvo.com before launch, with no paid ads. Featured on Dealroom.co "Just Founded" (Oct 2026).
- Proof that I can take a business from an idea to a working, professional product.

Landing page concepts for local businesses — 2026

- Concept sites for home services and a personal trainer, with modern animations (Astro, Tailwind CSS, GSAP). Visuals made with AI tools.

HOW I WORK

- **Talk:** what the business does, who the clients are, what the site must achieve
- **Concepts:** brand and design options to choose from, made quickly with AI tools
- **Build:** the site in Portuguese and English, with real content and photos
- **Test & launch:** checked on every screen size, then live on your domain

- **Support:** changes and updates when the business needs them

EXPERIENCE (SHORT)

- **Founder, R3solvo** · Since 2025: product, design, code and business plan, built alone with AI
- **QA Tester / QA Automation, BySix (formerly Visual Nuts)** · Feb 2019 until Oct 2025: usually the only QA for SupplyStack (now part of Trimble), a logistics platform used by DHL and Sony Europe. Ran demos and onboarded clients
- **Developer, QA & Analyst, Wiltec** · Apr 2018 until Jan 2019: built the electronics shop's web app for sales, repairs and invoices
- **QA Tester & Web Developer, Satélite da Sabedoria** · Jan 2017 until Mar 2018: online store for custom clothing, plus landing pages for marketing teams across Europe
- **Device Repair Technician, Wiltec** · 2016: smartphones, tablets and computers

TOOLS

- **AI:** Claude, OpenAI (ChatGPT), Claude Code, Cursor, Lovable, Bolt.new, Midjourney, Stable Diffusion, ComfyUI, Runway, Sora
- **Web:** HTML, CSS, JavaScript, TypeScript, Astro, React, Tailwind CSS, GSAP, Node.js
- **Design:** Figma, brand identity, print (business cards, PDFs)
- **Online:** Cloudflare (domains, hosting), SEO, Google-ready structured data, Supabase, Stripe

LANGUAGES

Portuguese (C2, near-native) · English (C1) · Ukrainian (native) · Russian (native) · Spanish (A2) · French (A2)

EDUCATION

Computer Science studies, University of Coimbra, DEI-FCTUC · 2011 until 2016
